

MURDER

BERLIN, June 30.—A despatch to the Tageblatt from Odessa says: "Mobs estimated to number 12,000 persons attacked the patrols of troops in the streets yesterday and the fighting continued into the night. Several hundred persons were killed or wounded. The hospitals are crowded with wounded."

"The petroleum reservoirs were set on fire and exploded. All traffic in the streets is stopped."

ST. PETERSBURG, June 30, 3:25 p. m.—A sensational report is current that 8,000 imperial sailors, together with the workmen at the yards and docks of the naval port of Cronstadt have suddenly refused to work and that practically a state of mutiny exists there.

ST. PETERSBURG, June 30, 4:55 p. m.—The mutiny of sailors at Cronstadt is confirmed. One officer was killed.

EDWARD F. THAYER PASSES AWAY AT LIVERMORE HOSPITAL.

THE LATE EDWARD F. THAYER.
Pioneer Resident of This City Dies
After An Illness Last-
ing a Year.

Edward F. Thayer, the well-known liquor man of 907 Broadway, died today of paralysis at the Robertson Sanitarium, Livermore, after an illness extending through the greater part of a year. The end was painless and unexpected, for the reason that the patient, for some months, had been unable to attend to business because of his malady and he voluntarily committed the charge of his store to trusted employees and retired, hoping to experience recovery in rest or else to quietly prepare for the end, which he correctly estimated was not far away.

REGRET FELT.

The news of Mr. Thayer's demise was received here a few minutes after the passing took place. It caused profound regret among the many people who had had business dealings with him. All of whom had known him as genial, gentlemanly and upright during an acquaintance extending in some instances over thirty-five years. At the same time expressions of sympathy with the bereaved widow were not infrequent among those who had become acquainted with the lady who now bemoans Mr. Thayer's decease.

SUCCESSION OF TRIALS.

Death was the result of a gradual breaking down of a physical system which was more than ordinarily robust, which had received the greatest consideration and care at the hands of its owner, and which, until only a few months ago, seemed destined to withstand even the ravages of old age.

A little more than two years ago Mr. Thayer felt that his sight was being seriously impaired, and immediately took steps to avert such a misfortune, and succeeded so that, with the use of spectacles, he was able to attend to business, though not with the celerity which had formerly characterized him.

Several minor ailments which caused him to fear might become chronic then assailed him, and with these he struggled heroically until, in conversation with a surgeon one day, he discovered that his sense of hearing had become impaired.

ALL AT ONCE.

Commenting on this fact at the time,

he remarked sorrowfully in the hearing of a circle of friends:

"I am now years old. I have never been sick in all my life, but now all my troubles seem to be coming at the same time."

This was a sentiment which was assented to in silence by those who heard expression given to it, and who realized that the troubles referred to were really the beginning of the end.

Soon after this episode, Mr. Thayer experienced mental trouble and sought rest behind the bar of the hotel street resort, which by the way, is still in existence, and then soon followed paralytic strokes which finally produced death.

NEW ENGLAND STOCK.

"Ed" Thayer was born of old New England stock, in Randolph, Massachusetts, April 1848, and at the time of his death, therefore, he had entered upon his 57th year. He was educated in the district school of those days in his native place and, when he had grown to be a lad, he moved to Boston, where he became a clerk in a grocery. He followed this calling for several years, acting, however, at times in different lines of business.

IN SAN FRANCISCO.

In 1868 he moved to San Francisco, coming here by himself, unaccompanied by either relative or friend.

He was then in the heyday of youth, active, intelligent, industrious and possessing a business-like appearance.

He decided upon entering the liquor business, and readily found employment behind the bar of the hotel street resort, which by the way, is still in existence, known as the Collins saloon, at the corner of Montgomery and California streets.

He remained there for three years. It was a time when rich men thronged the streets of San Francisco, when wages were liberal and when experts in Mr. Thayer's calling were in demand. The deceased was rated among the most prominent in his business, enjoyed the confidence of his employer, and had the esteem of the vast throng of people whom he met day by day.

IN OAKLAND.

In 1871 Mr. Thayer moved to this city and readily found employment in the liquor place of J. J. Hanlin, then at the northwest corner of Seventh street and Broadway. It was there he made the acquaintance of men who have since been

BLOODY SCENE ENACTED ON CZAR'S WARSHIP.

OFFICIAL REPORT OF TROUBLE.

LONDON, June 30, 6:20 p. m.—A private cable message received in London this evening says the Black Sea squadron arrived off Odessa and then retired until the vessels could be seen on the horizon, where they are now motionless.

WASHINGTON, June 30.—A cablegram also received from Ambassador Meyer at St. Petersburg says: "Information from Odessa that 500 rioters have been killed. The harbor largely destroyed by fire; battleship firing on the town. FLEET ARRIVED."

ST. PETERSBURG, June 30, 6:50 p. m.—The battleship Kniaz Potemkine, according to official advices received at the Ministry of the Interior from the Governor of the province of Kherson, in which Odessa is situated, left Odessa early this morning for an unknown destination.

RESULT OF PLOT OF TWENTY YSAIORS.

The official version of the affair puts an entirely new light on it. It is claimed that the mutiny on the Kniaz Potemkine was the result of a plot concocted by twenty sailors who were members of a revolutionary organization. The complaints of bay food, it is asserted, were mere pretexts.

When the complaint was made to the captain of the battleship he caused the bluejackets to be drawn up on the decks and asked those who were satisfied to step out, and it was seen that they were in the majority. Thereupon, the minority, headed by the revolutionists who are said to have included foreign anarchists, seized the guns and turned them upon their comrades.

MANY MURDERED BY MUTINEERS.

A bloody scene followed. Nine officers and many men were killed or jumped overboard, and the mutineers after placing the remaining officers in irons, took possession of the warship. Commander Gokloff was among the killed.

The red flag, was hoisted when the Kniaz Potemkine appeared off Odessa. When the body of Omilchuk (the man who was shot by the commander of the warship, according to previous reports) was taken ashore for burial, it was surrounded by crowds of students and revolutionists, many of whom were Jews.

Inflammatory speeches were made and subsequently some of the revolutionists went on board the ship and assured the sailors of the army's sympathy and readiness to co-operate with them.

The sailors then turned their attention to the ships in the harbor, and the portion of the city along the water front, which was soon on fire in many places.

GENERAL MURDERED.

VIENNA, June 30.—A dispatch received at Bucharest from Kishineff says General Czernotucki, chief of the Bessarabian gendarmerie, has been found murdered in his residence at Kishineff. A general strike has broken out at Kishineff. The town is occupied by Cossacks.

STRIKE CONTINUES.

ST. PETERSBURG, June 30.—The strike at Zoznesn, province of Vladimir, continues. Infantry and cavalry are quartered in the houses and courtyards and are bivouacking in the streets. The Governor of the province has arrived at Zoznesn from Vladimir, capital of the province.

CRUISERS GUNS TRAINED ON REVOLUTIONISTS.

PARIS, June 30, 5:30 p. m.—Official advices from Odessa say that three warships of the Black Sea fleet have arrived there for the purpose of taking measures against the mutinous crew of the battleship Kniaz Potemkine.

No action, however, has yet been taken, nor has the commander of the squadron indicated his intentions.

Some fear that the crews of the advancing warships may sympathize with the mutineers and join issue with them.

MORE DISORDERS.

Comparative calm has been restored within the city, but disorder continues in the harbor section where considerable parts of the wharves and docks have been burned.

Precise information is not given in the official advices, but they are understood to further confirm the press reports that the dead and wounded number several hundred.

ST. PETERSBURG, June 30, 3:02 p. m.—Not since the insurrection in December, 1825, when a portion of the guard regiments joined in an attempt to set up a republic in Russia, has the situation of the autocracy and the Romanoff dynasty been so serious. Nevertheless, the crisis may be passed in a few days. Either the open revolt will at that time be stamped out or the flames will have spread, possibly beyond the hope of control.

EXPECT SQUADRON.

At the admiralty it is said that Rear Admiral Kruger's squadron is expected to arrive at Odessa during the day. No explanation is offered for the delay of the squadron's sailing from Sevastopol.

It is admitted, although reticence is manifested, that at 9 o'clock last night the Kniaz Potemkine was firing upon the city. The admiralty thinks the mutinous crew were probably drunk. The officials consider it possible that the crew were supporting the strikers and revolutionists ashore against the troops.

Throughout the day the soldiers and police had evidently refrained from attempting to interfere with the strikers under the threats of the mutineers of the battleship, to use their guns against them.

MILITARY LAW.

Although it is possible acquiescence is due to fear, the authorities think they are unable and a regiment of dragoons and a brigade of artillery have been sent to Odessa from Kae-

ROCKEFELLER GIVES TEN MILLION FOR HIGHER EDUCATION.

Standard Oil Magnate Wants the Interest on the Money Distributed Throughout the Country.

NEW YORK, June 30.—Ten million dollars as an endowment for higher education in the United States has been given by John D. Rockefeller. The announcement was made by Dr. Wallace Buttrick at a meeting of the board today.

The following letter to the secretaries and executive officers of the board from F. T. Gates, Mr. Rockefeller's representative, was given out:

"36 Broadway, New York, June 30, 1905.

"To Messrs. Wallace Buttrick and Starr J. Murphy, secretaries and executive officers, General Education Board, New York:

"Dear Sirs: I am authorized by Mr. John D. Rockefeller to say that he will contribute to the General Education Board the sum of \$10,000,000, to be paid October 1 next, in cash or at his option income-producing securities at their market value, the principal to be held in perpetuity as a foundation for education. The income above expenses and administration to be distributed to or used for the benefit of such institutions of learning as such times. In such amounts, for such purposes and under such conditions, or employed in such other ways as the board may deem best adapted to promote a comprehensive system of higher education in the United States.

"F. T. GATES."

A STATEMENT.

With the letter the following statement was given out:

"John D. Rockefeller Jr., with other gentlemen of this city, was instrumental in forming the General Education Board in February, 1902. A broad and very admirable charter was secured from Congress and signed by President Roosevelt on January 12, 1903.

"A gift of one million dollars from Mr. John D. Rockefeller was immediately passed over to the board, especially designated for educational work in the South. Other funds have been added by other philanthropists since that time and the board has confined its work hitherto mainly to educational work in the Southern States.

"The present gift differs from Mr. Rockefeller's first gift to the board in the following particulars:

"AN ENDOWMENT.

"The gift of one million dollars on the organization of the board could be distributed. The present gift of ten million dollars is held as an endowment, the income only being available for distribution.

"The first gift was designed to be used exclusively in the Southern States. The present gift is for use not only in the Southern States, but throughout the United States without distinction of sect.

"The first gift could be used for common schools and secondary education; the second gift confined to higher education and is designed especially for colleges as distinguished from the great universities, although there is no prohibition in the letter of gift against making contributions to universities.

GIFTS AVAILABLE.

"Both gifts are alike available for denominational schools, as well as for those which are non-sectarian. While the funds may be employed for denominational schools, they will be employed without sectarian distinctions. No special denomination will be particularly favored, but the funds will be open to approved schools of all denominations, although they cannot be employed for giving specifically theological instruction.

FAVOR INSTITUTIONS.

"In distributing the funds, the board will aim especially to favor those institutions which are well located and which have a constituency strong and able to insure permanence and power. No attempt will be made to resuscitate moribund schools or to assist institutions which are so located that they cannot promise to be permanently useful.

NO RESTRICTIONS.

"Within these limits there are no restrictions as to the use of the income. It may be used for endowment, for building, for current expenses, for debt, for apparatus, for any other purpose which may be found most serviceable.

"It is known that Mr. Rockefeller has had this gift in contemplation for a long time and Mr. Gates has been studying the subject in his behalf for many months. If the fund proves as useful as is now anticipated Mr. Rockefeller will undoubtedly make large additions to it in future years.

MEMBERS OF BOARD.

"The present members of the board are as follows:

"Robert C. Ogden, chairman; George Foster Peabody, treasurer; Wallace Buttrick, secretary and executive officer for the States south of the Potomac and Ohio rivers, and Arkansas, Louisiana and Texas; Starr J. Murphy, secretary and executive officer of the States of the North and West; Frederick T. Gates, Daniel C. Gilman, Morris K. Jessup, Walter H. Page, Albert Shaw, John D. Rockefeller Jr., Hugh H. Hanna, William R. Harper and E. Benjamin Andrews.

"There are four vacancies in the board, which are expected to be filled later."

WELCOME GIVEN TO THE AMERICAN SQUADRON.

Warships Arrive at French Port to Convey Home Body of Paul Jones.

CHERBOURG, June 30.—The American squadron, commanded by Rear Admiral Sigsbee, consisting of the armored cruiser Brooklyn (flagship) and the protected cruisers Chactanoga, Tacoma and Galveston, which is to convey the body of Admiral Paul Jones to the United States, arrived here at 8 o'clock this morning and was greeted with a roar of guns from the land forts and warships and the dipping of flags on board all the vessels in the harbor.

A thick mist overhung the sea, preventing the semaphores from registering the approach of the American ships until they were near the outer harbor. The squadron presented a handsome appearance as it approached, with the Brooklyn leading the line. The batteries at the arsenal fired a welcoming salute of twenty-one guns, to which the four American vessels answered gun for gun. The squadron anchored in the inner harbor at a point designated by Admiral Besson, commander of the port. The aspect of the harbor was strikingly beautiful as the sun came out and the many merchantmen, steam yachts, and other pleasure craft in these waters strung out their full complement of colors, in which the American flag predominated.

The Brooklyn was soon the center of a flotilla of small craft, while the quays were quickly lined with people, and the boats crowding the harbor were loaded with spectators.

M. Besobrasov, president of the Yacht Club, and other persons, accompanied by the Yacht Club, were seen in the harbor.

Much regret was felt at the fact that the division of the French northern squadron assigned to participate in the ceremonies of the transfer of the American admiral's body to the Brooklyn next week did not arrive here in time to participate in the welcome to the American ships.

Admiral Sigsbee, accompanied by the commanders of the four American ships, called on Admiral Besson, and the latter, accompanied by his staff, returned the visit on board the Brooklyn, the ships firing an additional salute.

The French division, including the battleships Bouvines, Henri IV and Trepourt, is expected here hourly.

CASE CONTINUED.

The trial of Arthur Fryke and Henry Lamoureux, two boys charged with malicious mischief by D. Takelotte, a Japanese, was continued to August 4 by Acting Police Judge Geary this morning.

SAILORS SURRENDER AT ODESSA.

WASHINGTON, June 30.—Mr. Heenan, the American consul at Odessa, in a cablegram to the State Department, dated today at 2:35 p. m., says:

"Firing soon ceased. Fleet arrived at 12 o'clock today. Kniaz Potemkine surrendered at once without firing a shot."

LIBAU, June 30.—A mutiny started Wednesday night when the sailors of the first equipment, as the national units are known in Russia, revolted because the food was bad. They were joined immediately by the Sixth, Ninth, Thirteenth and Fifteenth equipments—5000 blue jackets in all.

TO STARVE THEM.

At Libau the mutinous sailors to the number of about 5000 were finally corralled by troops and artillery in a wood near the port and by this morning a thousand of them had already surrendered. Their comrades possibly will be starved out. Whether there was any great loss of life is as yet unknown.

Great precautions are being taken to prevent the possible spreading of the mutiny to the sailors of St. Petersburg and Cronstadt.

BLOCKADE PORT.

LONDON, June 30.—A dispatch to the Evening Star from Odessa today says:

Since midnight the Russian battleship Kniaz Potemkine has established a blockade of the port in regard to all steamers flying the Russian flag. Not one is allowed to enter or depart. Six of these steamers are now anchored in the roads under the battleship's guns.

The port thus is in the extraordinary position of being blockaded on the sea side by a mutinous warship, and the land side is impassable owing to the military cordon which seals up every approach to the harbor.

REVOLT AT FOOD.

LIBAU, June 30.—A mutiny started Wednesday night when the sailors of the first equipment, as the national units are known in Russia, revolted because the food was bad. They were joined immediately by the Sixth, Ninth, Thirteenth and Fifteenth equipments—5000 blue jackets in all.

I. D. MAGNES RETURNS FROM TRIP.

Popular Young Business Man Tells of His Visit to Portland.

I. D. Magnes the progressive young business man of this city, has just returned from the North. In an interview with a TRIBUNE representative he had the following to say:

"If I did not say that I was glad to get back to Oakland you fellows would not be around here bothering me with an interview. The fact is, I was sorry to get away from the North. You can not help but know that California is a sister State, when you meet so many people from California."

"Oakland people are well represented in Oregon. One of the directors of the Exposition said that the California people were in as much evidence as the Oregonians themselves. You can tell the people of Oakland that it rains in Portland. People in Oregon try to convince you that the rain is not wet, and that the rain comes down on the side of you instead of all over you. This surely is a legend. For it rained four days steadily while I was there and I soon acquired the term of a webfoot."

"The Exposition is a fine representation—a credit to the people of the Northwest. The beautiful lake, and the mountains, are such an important factor at the Exposition. The forestry building, the display of the Japanese, the California exhibit, the government building and its locality, the lake view terraces with the esplanades are features that have had no representation at any world's fair."

"Our own State makes such a grand showing—one feels proud to wear the little yellow badge with 'California' printed across it. It is good to be a Californian, one cannot help but feel a proud smile on his face as he enters the California building and sees that grand display."

"Is there another State that has that which California possesses?"

"Such beautiful roses that grow in Portland, has earned the city the title, 'The City of Roses.' The roses grow

in such profusion, that it is a very common occurrence to see the American Beauty roses growing in hundreds of gardens."

"Portland's business center is growing every day and in the many conversations I had with business men of that city they say that a new awakening has come to them, that the aftermath of the Exposition will have a tendency to have people settle in the Northwest, and thereby cause the commercial interest to still grow. Yes, I am truly glad to be home again. What Californian is not pleased to come back to his native State." Mr. Magnes leaves for a few days' rest at a ranch.

NARROW ESCAPE FROM DEATH

ALAMEDA, June 29.—A G. Craig, a carpenter aged nearly seventy years residing at 1224 College avenue had a narrow escape from death this morning, when he was struck by the 11:15 o'clock train on the south side line at Vetsall's station.

Craig is very deaf and attempted to cross the track without noticing the approach of the train and was struck by the locomotive and thrown to one side. He received a bad contusion of the scalp and a slight fracture of the skull.

The aged man was removed to the city Receiving Hospital and attended by Drs. W. O. Smith and E. M. Keves. It is not believed that the injuries will result fatally but owing to his age the accident was a severe shock to his system.

ROBBED BY BOYS.

Mrs. J. P. Mitchell who conducts a
notion store at 1717 Filbert street re-
ported to the police this morning that
some boys had stolen \$6 in cash and
about \$8 worth of fireworks yesterday
from her place while she was temporarily
absent. It is probable that a part of the
money and the fireworks will be recov-
ered as the police have a good idea as to
who took them.

ATTEMPT
TO ROB
A SAFE

Try to Break Open
Wells Fargo's
Strongbox.

Between 3 30 and 6 o'clock this
morning an attempt was made to
break into the safe of the Wells, Far-
go Company at the Sixteenth street
depot. The effort was not a success
principally because of a great lack of
knowledge on the part of the operator.
A sledge hammer was the instrument
used in an attempt to batter the door
of the safe down. There were a few
denials made in the front of the safe
but no damage was done to the com-
bination or the handle of the safe.

The sledge was secured from a
nearby section house. From the sur-
rounding circumstances it is assumed
by the detectives that the attempt to
rob the safe was made either by an
ignorant workman or by boys who did
not have a knowledge of safes.

The Wells, Fargo employees were at
work in the office until 3 30 o'clock in
the morning. The day force came to
work at 6 o'clock leaving the would-be
safe crackers but two hours in which
to work.

TAPPAN "WANTED"
BY POLICE

HOW AN ALAMEDA ATTORNEY
AVOIDED AN AP-
POINTMENT.

Perhaps Judge R. B. Tappan of Alameda never talked more eloquently for a
client than he did for himself this morn-
ing when Superior Judge Ellsworth was
about to appoint him attorney for Her-
bert Marsh, a youth charged with burg-
lary. His eloquence was convincing and
he was, excused by the court. Town At-
torney Johnson of Berkeley and Attorney
T. G. Graber were equally successful in
begging off, and it was not until At-
torney R. B. Hewitt appeared upon the
scene that a lawyer could be secured to
defend the accused.

Acamus is accused of entering the room
of Adela Schindler on Ninth street and
stealing a purse containing \$20. He had
no attorney this morning and demanded
the appointment of one. Just then Town
Attorney Johnson appeared, but before
Judge Ellsworth could make the business
of Berkeley needed his attention and
that he had not yet taken his vacation.

He was excused.

Attorney Graber was then called upon.
He also desired a vacation and was ex-
cused. At that point Judge Ellsworth
observed Tappan standing behind a post
and asked him to take the case.

"I am prejudiced against men charged
with crime," he pleaded, "because I be-
lieve nine-tenths of them are guilty. I
could not do the boy justice. Besides the
police of Alameda need me to issue war-
rants."

If you are wanted by the police I
suppose you must be excused," said
Judge Ellsworth. "You need say no
more." And Tappan hurriedly left the
courtroom.

Then Hewitt appeared and was ap-
pointed.

WANT A CHANGE
OF PLACE OF TRIAL

CHICAGO, June 30.—Members of the
Furniture and Expressmen's Associa-
tion, against whom proceedings have
been started to compel them to deliv-
er to strike bound houses, went before
Judge Holdom today to ask for a
change of venue. Attorney James
Brady, counsel for the Parcel Express
Company, served notice on the La-
borers' Association that he would ask
for a change on the ground that Judge
Holdom is prejudiced.

WILL ABOLISH THE
MILITARY DISTRICT

ST. PETERSBURG, June 30.—The mili-
tary council has decided to abolish the
Finland military district and the post of
commander-in-chief of troops in Finland
is suppressed. The commander hereafter
will be incorporated in the St. Petersburg
military district.

IS FOUND GUILTY.

C. L. Wenttraut, deputy poundman,
was found guilty this morning of hav-
ing driven one of the horses used in
the pound wagon cruelly Judge Samu-
els will pass sentence on July 3.

The complaining witness was I. H.
Herold, who alleges the horse was
being driven with large sores on its
shoulders.

SENTENCED TO JAIL.

Joseph Marks, a healthy vagrant, was
this morning sentenced to serve sixty
days in prison by Police Judge Samu-
els. A disinclination to work seemed to be
the principal thing—the matter with
Marks.

POLICE CLERK'S REPORT.

Police Clerk Hennessy this morning
turned into the city treasury \$354, rep-
resenting the fines and forfeitures col-
lected during the month.

THE LATEST NEWS OF THE DAY=4:30 P. M.

GIRL MISSING; SUICIDE OR ELOPEMENT?

Disappears From Home, Leaving Note Saying She's to Drown Herself.

George Walther, of Haywards, reported to the police this afternoon that his 15-year-old daughter, Lena Walther, had disappeared from home, leaving a note stating that she was going to drown herself.

She disappeared from the town of Haywards in company with Mary Silva, a young woman three years her senior.

At the time of her disappearance Lena was dressed in a blue waist and skirt. She was of dark complexion, having brown eyes and hair.

It is thought possible that instead of drowning herself, as her note stated, that she has eloped.

AGITATORS OF THE RIOTS ARE PLAYED.

Squadrons of Cossacks Use Their Whip on People—Sailors Surrender.

LIBAU, June 30, 5 p. m.—The mutiny of bluejackets here has ended. The sailors, after a parley with the commander of the troops, agreed to surrender their arms and return to duty upon the promise of better food.

SERADZ, Russian Poland, June 30.—Two squadrons of Cossacks have arrived here to quell the rioting caused by the whipping by the police of a number of agitators.

KALISZ, Russian Poland, June 30.—Cossacks today dispersed with their whips a crowd which attempted to make demonstrations with red flags in front of the churches.

PERISH IN FLAMES.

ST. PETERSBURG, June 30.—During the wild excesses of Wednesday night about 300 rioters were killed by the troops and several hundred were wounded, a number of them being Jews. Many drunken rioters perished in the

CHOSEN CHIEF ENGINEER OF CANAL.

WASHINGTON, June 30.—Secretary Taft today appointed John F. Stevens chief engineer of the Panama Canal Commission, with residence on the isthmus. Mr. Stevens succeeds John F. Wallace. Mr. Stevens will also be general manager of the Panama railway. He will not be a member of the Isthmian Canal Commission. His salary will be \$30,000 a year.

Mr. Stevens is now in the service of the Philippine Commission as government engineer and inspector in the construction of 1000 miles of Philippine railways about to be built under government aid. He was to have accompanied Secretary Taft today to the Philippines, but has been transferred to the Panama canal work.

An official announcement was made by Secretary Taft in part as follows:

"Mr. John F. Stevens has been appointed chief engineer of the Isthmian canal, resident on the isthmus, to take effect at once. The technical plans are to be determined by the commission as a body with the advisory international board of engineers recently appointed by the president and whose plans are decided from stage to stage will be executed on the isthmus by the chief engineer. With the chief engineer confining himself to the actual work of construction and operation and concentrating upon the execution of the plans as adopted by the commission, it is believed that the canal work will be more actively prosecuted."

RIOTING IS NOW AT AN END

Mayor Will Take the Officers Off the Wagons.

CHICAGO, June 30.—Whether the teamsters' strike is officially ended by next Monday or not the police guards are to be taken off the wagons of strike affected firms in the business district of the city. The policemen thus released will be returned to their customary stations. Mayor Dunne made the decision today, believing that rioting in the streets is practically over.

TROUBLE OVER A SALOON

N. J. BROOKS BRINGS AN ACTION AGAINST J. E. MAPLE.

Ned J. Brooks says he left a position a month ago to engage in the saloon business with J. E. Maple. Now he is wondering just "where he's at," and has filed a suit against Maple for a dissolution of partnership and for the appointment of a receiver.

Brooks was a bartender and Maple a whisky drummer when they decided to try their fortunes in a business of their own. They went to Theo Gier and Hansen & Kahler and secured the saloon at 466 Ninth street for \$1,500, according to Brooks' complaint. The agreement was that they should pay Gier and Hansen \$40 a month. After securing the saloon they proceeded to fit it up as a first-class resort and named it "The Press," and, according to Brooks, success was immediate. He asserts that within a month the value of the place has increased to \$3,000 or \$3,500.

Everything went well until June 24, when Brooks and Maple quarreled, and it is alleged, the latter told Brooks that he had no interest in the business; that he was merely a bartender, notwithstanding that the license, receipt for rent and business cards were made out in the firm name.

Brooks states that he paid in \$25 and that the defendant borrowed \$150, which with \$150 that Maple already had, went to pay the rent and license tax. He says that Maple has taken in \$650, for which he has failed to make an accounting.

Maple tells an entirely different story. He asserts that Brooks was his friend, and that he simply employed him as a bartender and paid him a salary. Maple asserts that there never was a thought on his part to take Brooks in as his partner; that he put up the money and made the business good; that he was always known as the proprietor and that the charges made in the complaint of Brooks are not true.

BERKELEY MAN BADLY INJURED

BERKELEY, June 30.—Robert Bush, a prominent attorney, was struck this afternoon by a Japanese who was riding a bicycle. He came upon Mr. Bush without warning at the corner of Cedar street and Shattuck avenue. Bush was thrown to the ground, his head striking the curbstone. The Japanese rider did not stop to see the consequences of his rash riding. Bush lay in the street unconscious for some time before passersby noticed his condition. He was then removed to the home of his sister, Mrs. Dr. H. Young, of 1225 Francisco street, where medical aid was summoned.

It appears that Mr. Bush was injured internally in addition to the fall that rendered him unconscious.

Snyder, president of the National Bank of Commerce, of this city, have returned to the Equitable Society their respective shares in the profits of the syndicate known as "James H. Hyde and associates." The syndicate, according to the report of State Superintendent of Insurance Hendricks, sold bonds to the Equitable Society at a total profit of \$186,187, of which Mr. Deming received \$4,576 and Mr. Snyder, \$1,510. Both were directors of the society.

At the meeting of the executive committee of the Equitable Society today the resignation of James H. Hyde as chairman of the executive committee was accepted by Paul Morton, chairman of the board of directors. Mr. Morton was elected in his place. It was also announced that Mr. Morton had accepted the resignation of William H. McIntyre as fourth vice president of the society.

SENATOR, BUT IN POVERTY

Why Attorney Takes Up Defense of Mitchell.

PORTLAND, Ore., June 30.—Senator John M. Thurston began his argument in the defense of United States Senator Mitchell in the United States Circuit Court today. He contended that he had come 3000 miles to assist in the defense of the Senator because he had seen the old statesman in comparative poverty at Washington, after 24 years of service in the United States Senate and he knew in his heart that a Senator who, after 24 years in the Senate, lived as Senator Mitchell had lived, was an honest man.

He contended that the prosecution was waged through the newspapers to all parts of the country. He alleged that the mass of testimony introduced by the Government did not substantiate the counts of the indictment, but was a lot of irrelevant matter that had been introduced to influence the jury. The case cannot now go to the jury until tomorrow.

WOMAN KILLED BY AUTO

Chauffeur Was on His Way to Court When Accident Happened.

NEW YORK, June 30.—Frank C. Foote, a chauffeur for James J. Hill, of the Northern Pacific road, while running an automobile today ran over and fatally injured an unknown woman at the corner of Charles and Greenwich streets. The woman died half an hour later.

Foote was remanded to the custody of the Coroner.

The chauffeur was on his way to court to be tried on a charge of speeding the automobile when he struck the woman.

The police say Foote was running the machine carefully and that the woman's death was purely accidental.

ABUSED BY HER HUSBAND

WOMAN GIVEN DIVORCE ON THE GROUND OF EXTREME CRUELTY.

Marie L. Hubbell of Alameda today secured a final decree of divorce from S. G. Hubbell, whom she married seven years ago, and whom she accused of repeated acts of extreme cruelty.

The abuse to which Mrs. Hubbell was subjected by her husband, who is an advertising solicitor, is described in the most forceful language of R. B. Tappan, her attorney, who drew the complaint upon which the divorce was granted. According to Tappan the husband cursed and beat and bruised his client until he made life for her and her daughter unbearable.

They lived at 1818 Mulberry street, Alameda, and one night Hubbell went home "loaded to the gunwales with fiery, untamed whisky that made him a perfect demon" and proceeded to beat his wife. He also made frequent threats to kill her. Mrs. Hubbell stood his abuse until he turned upon their little daughter, Marion. Then she ran to the kitchen, procured a butcher knife and declared that she would stab her drunken spouse if he did not desist. When he saw the knife, it is alleged, Hubbell, in "Tekyll and Hyde" fashion, changed his demeanor and with honeyed words induced her to put it away. No sooner had she done this than he changed again and exclaimed: "Now, ———, I'm going to murder you."

Often, Mrs. Hubbell says, she was forced to flee for her life, and once she prevented him from holding her and the child with a kettle of hot water by barricading the door. It was not unusual, she says, for him to choke her until she pleaded for mercy.

MAYOR TELLS BOYS TO OBEY THE LAW.

He Admonishes the San Francisco Newsboys to Keep the Peace.

SAN FRANCISCO, June 30.—Regarding the strike of the newsboys against the Bulletin, Mayor Schmitt has issued the following statement:

"Mayor's Office, June 30, 1905.

"To the Newsboys of San Francisco: I am your friend and the friend of all boys who seek to earn an honest living. You have my sympathy and the friendly feeling of all good people who realize your provocation when a newspaper distributes its paper free in order to prevent your selling a competing newspaper, and thereby attempts to take from you the little business which supports you and those dependent upon you. You cannot, however, succeed in winning your fight against such a paper unless you obtain and hold the friendship and confidence of the people. Till you cannot do unless you conduct yourselves in an orderly and peaceful manner. There must be no violence, assaults or disturbances.

"If it is true, as some of you have informed me, that the Bulletin has employed rowdies to commit criminal acts and to make trouble, so that it may then be blamed on you, in order to injure your cause, you have an easy remedy. Point out the offenders at once to the police and have them arrested."

"From what I know of the contentible character of its proprietor and editor, and from the course of their newspaper, I should be quite willing to believe that they are doing the very things you charge them with, but this does not justify disturbances or breaches of the peace on your part."

"You must not take the law into your own hands. The Bulletin has lied about me day after day, yet you have never seen me taking the law into my own hands. You must do likewise. You must remember that I am the Mayor of the city, not only of the newsboys, but of the newspaper carriers and of the newspaper subscribers and purchasers, and it is my duty to protect them from being injured by the actions of the newsboys. No violence toward carriers, subscribers or purchasers of papers will be tolerated. You must bear this in mind and act accordingly, and I have given all the officials of the city instructions to that effect."

"I am sure you will heed my suggestions, as they are given to you in the most friendly spirit."

"I know that it is hard to stand by and see them trying to take away your living by distributing their papers free and to see hired rascals do things that you are blamed for, but nevertheless you

CONTEST ANSWERS TOMORROW

Saturday's Tribune Shows Secrets of the Write-Ups.

THE TRIBUNE'S "Knowledge Contest" is over and nothing now remains save to determine who are winners and to award the prizes.

In order to determine this fact every letter sent to THE TRIBUNE by a contestant must be examined carefully and the number of correct answers contained in it tabulated. As thousands of answers have been received, this examination cannot be accomplished on the spur of the moment. Several days will be required for this purpose. The announcement of the winners names will be made in these columns early next week, but the exact date cannot now be given. When it is known on what day the showing can be published there will be previous notice of the fact given in THE TRIBUNE.

COMPARE YOUR ANSWERS.

For the purpose of enabling each boy and girl, man and woman, who sought, at home or elsewhere, to identify the firms, individuals or articles of trade in the write-ups which appeared in last Saturday's TRIBUNE and formed the basis of THE TRIBUNE'S "Knowledge Contest," to see how many correct answers he or she may have given, THE TRIBUNE tomorrow will publish the same write-ups, but, in this connection, each write-up will be accompanied by the name of the individual firm or article to whom or which it referred. Contestants, therefore, should make out a list of their answers and compare those answers with the disclosed identity of each write-up in tomorrow's TRIBUNE.

COMPLIMENTS ALL AROUND.

THE TRIBUNE has been complimented on every hand for its enterprise in introducing the "Knowledge Contest" to the community. The feature was new, and this section and appealed only to intelligent people, whether young or old, and it is among the intelligent people of this section that THE TRIBUNE secures its readers and patrons.

People who have sent in no answers have thanked THE TRIBUNE for affording them a means of passing a few evenings in the enjoyment of real intellectual work.

People who have answered the write-ups have thanked THE TRIBUNE for the facility it afforded them of becoming acquainted with the methods and customs of local business men and the leading enterprises which they are supplying to the trade.

And above all, THE TRIBUNE has been thanked for the fact that it has been able to place in the hands of the people who took part in the contest, the results of their own efforts, and the business men who would have been pleased to pay for them, that it is pleased with itself.

HODCKINS STAR IS SAFE

The case of Chief of Police Hodgkins will be called up again before the Police Board tomorrow. It is understood that this is only a formal matter, as there is now no thought of removing Hodgkins from office.

PETITION SENT TO PRESIDENT

Norwegians Want Him to Recognize Norway.

CHICAGO, June 30.—The petition which has been forwarded to President Roosevelt, signed by nearly 20,000 Norwegians residing in or near Chicago, asking for the recognition of the new government, quotes a resolution as adopted by the Storthing on June 7th, and thus says:

"We citizens of the United States earnestly hope and do respectfully petition that you will at the earliest opportunity signify your recognition of the government of Norway, so created by the sovereign will of the Norwegian people as expressed by the action of their representatives in the Storthing assembly."

In a letter accompanying the petition, Frederick H. Gade, chairman of the committee having the petition in charge, writes to President Roosevelt as follows:

"This government is a de facto government in full, complete and peaceable conditions, and a power of the government machinery and functions of the courts were established by the unanimous action of the representatives of the people and is supported by the entire people of Norway. Nearly one-third of the entire Norwegian population of the world resides in the United States under your care and protection, and these citizens of the United States, following the events in their old home with the deepest interest and concern, earnestly hope that their country of adoption will be the first to afford friendly recognition to the country of their birth."

ARTICLE CAUSES SENSATION

BERKELEY, June 30.—Something of a sensation was created on the campus today when the Filipino Magazine for July made its appearance.

One of the leading articles in the magazine was contributed by Irving Winslow, secretary of the Anti-Imperial League of America. In this article Mr. Winslow makes the following statement:

"The Filipino students who are pursuing their studies in the various institutions of learning in the United States need not consider themselves hampered or bothered by the government in the Philippines. The officials on administration, which has drawn large revenues from your government by education with representation from the Philippines, are really paying the expenses of these young men, just as their own countrymen are paying the expenses of education and government in the archipelago, of affairs over which they have no control. That there is no obligation on the part of the United States to support the Philippine government is a fact which is in every true Filipino's heart."

The editors of the Filipino Magazine say that this article by Winslow does not necessarily represent the view of the Filipino student body as regards the relation between the Philippines and the United States.

LINE OF MARCH JULY FOURTH

Herman Gard, grand marshal of the Fourth of July procession, has about completed the list of organizations which will take part in the big procession in honor of the Declaration of Independence. Only a few more names are yet awaited, and these will arrive this evening. This will enable THE TRIBUNE to publish the order of the marching bodies in line in tomorrow's paper.

The procession will be a varied one and will equal in its imposing character any of the processions which have heretofore been held in this city on the glorious Fourth.

All merchants in town are earnestly requested to decorate the exterior of their stores with flags or national colors and in a special manner, merchants whose stores are located along the line of march.

REPORT ON STANFORD AVENUE.
City Engineer Turner reported to the Street Committee last night that the most convenient way to curb and grade Stanford avenue to the ocean is to grade and the grade of the roadway was to macadamize the right of way of the Southern Pacific Company on either side of the street, gradually sloping to the official grade. The railroad track is about two feet above the official grade. By dividing Stanford avenue into practically two streets and macadamizing the divisions separately, City Engineer Turner stated that both the convenience of the railroad company and the property-owners will be served. Superintendent Scott of the Southern Pacific Company was requested to appear before the Council committee at its next meeting.

The Spirit of Lawlessness.

One of the best things President Roosevelt has said in a long time was contained in that part of his address to the Harvard students inveighing against the lawless spirit prevalent in modern American life. He dealt with an evil that is noticeable everywhere—the spirit that bids contemptuous defiance to law, to individual as well as public rights, and to the decencies of civilized life. These words of the President are pregnant with meaning to every person who takes the trouble to give more than passing heed to the tendencies of the day: “The very rich man who conducts his business as if he believed that he were a law unto himself, thereby immensely increases the difficulty of the task of upholding order when the disorder is a menace to men of property; for if the community feels that rich men disregard the law where it affects themselves, then the community is apt to assume the dangerous and unwholesome attitude of condoning crimes of violence committed against the interests which in the popular mind these rich men represent. This last attitude is wholly evil; but so is the attitude which produces it.”

The disposition to trample under foot the law and to take whatever is to be had by force or artifice is prevalent on ever side. No street railway corporation obeys the law. Railways violate it systematically, and impudently justify the violation. The bicycle rider snaps his fingers at the ordinance requiring him to keep off the sidewalk or comply with certain regulations; the automobilist treats the speed ordinance as a dead letter; families burn garbage in backyards or dump it in vacant lots regardless of the law. Druggists habitually violate the law in selling certain compounds. Marketmen either evade or openly violate it in the ordinary course of business. Reputable firms prepare and sell all kinds of spurious and adulterated goods as a matter of course. Trade marks are pirated and patent rights infringed with studied method.

These forms of lawlessness are observable in every walk, profession and business of life. We find physicians who make criminal practice their regular business and lawyers who make a specialty of instructing clients how to perpetrate criminal and dishonest acts without incurring the penalties of law. In fact, everybody seems to be bucking the law in some particular, and society as individuals seems to be trying to break down all the laws and regulations society as a whole has devised for its own government and preservation. The same lawless spirit actuates the railroad company that refuses to slow up at highway crossings as that actuates the roysterer who pulls the feathers from a peacock’s tail in Golden Gate Park to feed the vanity of an addled wanton. It is the same with the individual who carries a pistol in his pants when the law prohibits it. The delivery clerk leaves his wagon unattended on the street, while the saloon keeper sells liquor to minors or surreptitiously keeps open after twelve o’clock.

Members of sportsmen’s clubs kill game out of season or shoot more in a day than the law allows. Pothunters do both, and trespass on private grounds in addition. Merchants store combustibles where the law forbids, while there is practical unanimity in the effort to defeat the tax laws. In truth, nine out of ten Americans are law-breakers.

The rumor that Secretary Metcalf will resign from the Cabinet is entitled to small credence. When Mr. Metcalf wishes to retire from the Cabinet he will hardly first communicate his plans to the anti-administration press. There is not the slightest ground for the assertion that his relations with the President and his colleagues are not perfectly harmonious.

The trades unions of Aberdeen, Wash., have refused to participate in a Fourth of July celebration because detachments of the State militia are to march in the parade. The reason assigned is that “when there is trouble between employers and employees, the first act of the employers is to call out the militia, and out they come, and being sworn to obedience, bloodshed and wholesale murder follows.” Evidently the trades unionists of Aberdeen regard whatever rules they adopt as being paramount to the Constitution and laws of the United States. Just for greens we would like to know what proportion of the men who voted to boycott the Fourth of July were born in this country.

Taft on Trial by Jury.

It is loosely assumed that Secretary Taft attacked the jury system in his recent criticism of the administration of criminal law in the United States. He did no such thing. What he did was to point to the impotency of the jury system as it exists in this country. What he attacked is the legislation which has exalted the jury and belittled the judge—the laws which have made juries the sole judges, in practice, of both law and fact, and which have reduced the judge from his position of guide and instructor to the humble office of moderator in the debates between lawyers. In England there is no appeal from the verdict of a jury in a criminal case; in the United States all criminal cases can be appealed on general principles. In England, the judge analyzes, dissects and sums up the evidence, and instructs the jury as to what verdict they should find; in the United States, the judge must confine his instructions to reading the law governing the case at bar, defining the degrees and penalties of the offense charged, and to general directions regarding the rules of evidence.

So far as the average jury is concerned, he might as well read a chapter from the Pentateuch, or expatiate on the necessity of making the study of grafting a special feature of agricultural education. As he is required to lay particular stress on what constitutes a reasonable doubt, he too often succeeds in raising unreasonable doubts in the minds of muddy-witted jurymen with hearts as soft as their heads.

Moreover, the manner of selecting jurors in this country tends to eliminate reading, thinking and intelligent citizens from the jury box. Our methods set a premium on the dull, ignorant and unthinking, who are deprived of the aid and counsel of the judge in arriving at a conclusion from the evidence presented.

Secretary Taft showed that we have well nigh ruined the jury system by making the judge a figurehead at criminal trials, and putting the responsibility of jury duty on the least responsible and least intelligent members of society. That the harvest of this policy is a carnival of crime and a constant shameful miscarriage of justice cannot be denied. Nor can Secretary Taft’s indictment be quashed by falsely representing that he has attacked the principle of trial by jury.

Tom Johnson and his crowd controlled the Ohio Democratic convention. Simultaneously comes the announcement that John R. McLean will take himself and the Cincinnati Enquirer over into the Republican camp. McLean is tired of eating crow. He ate it when Cleveland was President, and he has kept eating it ever since Bryan came to the fore. He now proposes to seat himself at a table where crow is not the regular diet.

India is well supplied with railroads from an Oriental point of view, but the British government is preparing for a great expansion and improvement of the Indian railway system. The House of Commons has authorized the issuance of \$100,000,000 bonds to extend present lines, build new ones, and increase the rail transportation facilities generally. Part of the money will be used in the purchase of the Bombay-Baroda line, now owned by private parties. Generally speaking, the railways of India are owned by the government, which

seems committed to the policy of taking over all the rail lines. Our government proposes to guarantee for thirty years the interest on \$30,000,000 bonds to build railroads in the Philippines, but the roads are to be built, owned and operated by private parties—under regulations, however, that would seem very onerous in this country. Our thirty millions for the Philippines looks a bagatelle compared to the hundred millions Britain is going to spend on railroads in India.

THE RHYME OF THE GLOOMY MILLIONAIRE.

“One of the saddest features of lives pursued by the wealthy consists in their isolation from humanity.”—President Benjamin Ide Wheeler, in a recent address.)

It is a gloomy millionaire,
And he stoppeth one of three:
“By thy steam yacht and bulging purse,
Now wherefore stopp’st thou me?”

The Sheriff’s men are at my door,
These are his minions twain,
And if I don’t produce the coin
I’ll sleep out in the rain.”

He holds him with his glittering eye,
The debtor faint stands still—
He listens like a three years child,
The Croesus hath his will.

“O, listen to the sorrows of
A hapless millionaire—”
The debtor danced and wildly pranced
And likewise tore his hair.

For ’round the corner he could hear,
The while his breast he beat,
The Sheriff’s crew that madly threw
His chattels in the street.

The man of wealth gave forth a groan,
He cried: “I live in vain,
Condemned am I to ever drag
The golden ball and chain!”

“On me the curse of fattened purse
Sits heavily, for, ay,
I have more villas than I need,
And yet I more must buy.

“I have more clothes than I can wear,
More food than I can eat;
Yet Frenchfully I’m forced to dine
With every friend I meet.

“Alas, my income swells apace
Despite the funds I spend,
My bank account grows in amount—
I dread the bitter end.

“Money, money everywhere—
O, pity my sad plight!
Money, money everywhere
And not a match in sight!

“Within my coffers lies the gold,
Held by the world’s restraint
With none to share, for all declare
Upon it there’s a taint.”

“Now, hold thee, sad-eyed man of wealth!”
The debtor cried with glee,
“Arent thy gold I shall not scold—
‘Tis good enough for me.

“And though the taint be on thy cash,
I’ll help thee, in thy woe,
And let thee pay, this very day,
The shekels that I owe.”
And straight the man of sorrows wrote
His check for copious dough.

The millionaire, whose eye is sad,
Whose purse with wealth runs o’er
Is gone. And now the Sheriff’s men
Turn from the debtor’s door.

He payeth them like one that’s stunned
And is of sense forlorn;
A sadder though a richer man
He thought the morrow morn. —O. H. F.

SUMMER SCHOOL SEEMS TO BE “SHY.”

Registration Figures Not Up to Those of the Session Last Year False—Reports.

BERKELEY, June 30.—In order to head off the wild talk about “record-breaking” registration figures at the summer school this year the official figures have been given out. Instead of there being more than 1,000 there are less than last year, when about 800 attended.

According to the registration figures issued at the close of the day’s work yesterday by the recorder the attendance this year will fall short of last summer’s registration by about ninety. The decrease is thought to be due to the presence of the Lewis and Clark Exposition, which is now at its height in Portland. The cut rates offered by the railroad and steamship companies during the summer months this year are also in a measure responsible for the falling off in the attendance.

Last year there were 824 applications and 791 actual registrations on the first day. This time only 751 applied for admission on the first day, and only 634 registered. On the second day in 1904 the applications were brought up to 863, and the registrations to 752; this year the corresponding figures are 721 and 674. Yesterday the total number of registrations was 701, while a total of 798 applications were listed. Last year on the third day the figures were 835 applications and 799 actual registrations. Last year 1001 applications were received before the session ended.

STORIES ABOUT WORDS.

Mr. Dalrymple and all other residents of Great Britain call street cars trams. The term is old. Three hundred and fifty years ago an Englishman left the following item in his will: “To the apprentice of the highway or tram, from the west end of Bridgegate, in Barnard castle, 20 shillings.” This “tram” was a plank road. Whether it was the ancestor of the “tram” of today or merely an etymological relation is not quite clear. The forefather of all the “trams” was a Scandinavian word meaning a log. In time “tram” in Scotland came to mean a beam, a cart shaft or the cart itself, and perhaps it is to this rather than to the “tram” that was a plank in a log road that the modern sense traces its origin. At any rate, etymologists affirm that the derivation from the name of Benjamin Outram, who improved rail tracks about 1800, is absurd. That recent international yacht race calls to mind the word “yacht,” like many other nautical words in the English language, is of Dutch origin. This is natural, since the English learned the art of seamanship from those old masters of the sea, the Dutch. Other Dutch words are “skipper,” “smack,” “sloop,” “keel,” “boom,” “taffrail.” From the Netherlands come also the words “smuggling” and “hoy,” as in “ship ahoy.” When one reads how Lord Nelson was taken down to the “orlop” deck to die at the battle of Trafalgar one has yet another term taken from the Dutch. “Schooner” is a word of American manufacture. At Gloucester, Mass., about 1713 Capt. Andrew Robinson built the first vessel called by that name. As it slid off the stocks into the water a bystander shouted: “Oh, how she scoons!” (skims). Robinson instantly said: “A schooner let her be.” The name has been universally adopted, but singularly enough, is spelled in

CARPENTERS OF HAYWARDS

HOLD MEETING AND ELECT OFFICERS FOR NEXT TERM.

HAYWARDS, June 30.—At a meeting of Haywards Carpenters' Union No. 815, which was held on June 24, the following officers for the ensuing term were elected: President, G. Toyne; vice-president, H. Boehmer; financial secretary, W. T. Allen; treasurer, J. B. Lewis; recording secretary, G. W. Toyne; conductor, F. Melnick; warden, T. Paria; trustees, G. Toyne, H. Boehmer and F. Melnick; delegates to J. D. C. G. Toyne and N. T. Sturtevant.

A series of resolutions were passed on the question of a parcel post for the United States, similar to that which is now enjoyed by Great Britain and France, it being possible now to mail a parcel weighing eleven pounds in London at a cost of 95 cents, namely, 72 cents from London to New York and 23 cents from New York to San Francisco, and delivered by the American express companies to whatever the eleven-pound

parcel is addressed, while it costs 54 cents to carry a four-pound parcel through Uncle Sam's Postoffice from New York to San Francisco. It was thought that the residents of the United States were entitled to the same treatment as that accorded to the European nations.

Contractor W. T. Allen will soon commence on the manufacture of cement fence posts. These posts are greatly in demand in the Eastern States, and it is thought that there will be a considerable demand for them in this district.

George Garwood and wife are visiting with Mr. and Mrs. D. S. Garwood.

J. Nicholas will subdivide into building lots the frontage of the Patterson ranch just purchased by him on upper E street. There is quite a demand for building lots in that locality.

WASHINGTON, June 30.—The State Department has been advised by the American Minister at Tokyo that the Japanese military commander has by proclamation opened to the Japanese merchants for trade and travel the following Manchurian towns: Pashikao, Old Newchang, Halchong, Anshankien, Lyaonsang, Kaiping, Sengwangheng, Samuchang.

The information was given the American minister that this action was purely a military measure.

SECRET SERVICE IS WELL PATRONIZED

"Secret Service," the attraction at Ye Liberty Playhouse this week, is drawing crowded houses every night. It is one of the best war dramas that has ever been seen here. Landers Stevens is seen in the leading role as Captain Thomas Lewis Dumont of the United States Secret Service and gives a creditable performance, it being the best thing he has done here. Francis Sloan is liked in the role of Edith Varney, in love with Captain Thomas. One Waldrop is giving one of the best performances ever played in this house as Caroline Whitford. Miss Gleason gives a good portrayal of the role of Mrs. General Varney. The other members of Bishop's players are all excellent in their different roles. Next week the management will offer Clyde Rite's play, "Barbara Fritchie." Edythe Chapman Neill will again be seen in the title role, which she made famous, being the only artist playing that role west of the Mississippi. James Neill will be seen in the role of Captain Trumbull, the Northern officer. They will be ably supported by a picked cast from Bishop's players.

WORK ON CANAL STOPPED

POINT RICHMOND COMPANY GETS INTO TROUBLE WITH THE GOVERNMENT.

POINT RICHMOND, June 30.—That the Point Richmond Land and Canal Company, that had been digging a canal through the tide lands, was having trouble with the Government has been known for several weeks, but it was not until yesterday that the nature of the trouble was learned.

It has developed that the Nicholl company filed objections to the closing of the slough, making a showing to Col. W. H. Heuer, the War Department's engineer, that the Richmond Slough is a navigable stream.

Under the law, land fronting within sixteen feet of a navigable stream has the same right of protection as if it were bordering on same. The Nicholl company has 1000 feet of land within the sixteen-foot limit and has also one corner in the slough. Therefore its contention holds good.

The Canal company will not spend money to construct a canal in which they would be forced to divide the benefit with anyone else, hence the project will be reduced to throwing up a levee on the east side of the slough and reclaiming a piece alongside the Santa Fe tract. The benefits of this will all inure to the east side.

WRIGHT RESIGNS. C. H. Wright, the Santa Fe railroad man who has just returned home from an extended visit East, has resigned his position here and accepted a better one from the same company in Stockton. Mr. Wright has been identified with the Santa Fe at this place almost since its inception.

HIS BROTHER ILL. C. H. Wright received a letter this morning from his brother at Grand Rapids, Mich., stating that since his visit to him a short time since he had been attacked by smallpox and was until the date of this letter under quarantine. He has recovered.

ENLARGING PLANT. The Wilson-Lyons Brick Manufacturing company is enlarging its plant by adding new machinery of the latest approved pattern.

EAGLES WILL DANCE. The Eagles will give a ball at Maple Opera House on Saturday evening, July 1.

The committee in charge of the dance is working hard to make the success of the affair, and a large crowd is expected to attend.

PERSONALS. Miss Belle Wheeler returned Wednesday from a visit to friends in Stockton. Miss Wheeler is a niece of Mrs. Robert McCrea, on Nicholl avenue. Wilbur Younglove has gone to work in the acid department of the Standard Oil company as an assistant to Chemist Oscar Staley.

Mr. and Mrs. L. D. Dinan are back from an outing at Highland Springs. Bert Crampton, who has been working for the Pacific Coast Oil Company in Redondo for the past three months, has returned home.

Mrs. Anna Cady of San Francisco is in town, the guest of Mrs. B. J. Baker for several days. Constable Frank A. Molitor was a Martinez visitor Wednesday.

OAKLANDER BOYS A SUMMER HOME

The popularity of portions of Santa Clara and Santa Cruz counties as sites for summer homes, with residents of Oakland, is steadily increasing.

Among the recent purchases at Los Gatos was that of H. C. Chesbrough of Vernon Heights. He bought a sixteen-acre fruit ranch, which he has planned for the erection of a new residence. Mrs. and Miss Chesbrough and the latter's cousin, Miss Kaufman, moved down this week and are installed in their summer home.

CLUB MEETING. On Thursday evening the members of Lee Joyeux held their last meeting at the home of Mr. and Mrs. R. F. Gulchard on Twelfth street. The ladies of the club planned an elaborate entertainment for the gentlemen members and their friends. The affair proved most successful.

Among the San Franciscans present were the Misses Buckley, Miss Rivas, Misses T. and G. Cabrera, Miss Curtin, Miss Davis, Miss Mulrenin, Thornton Thompson, Dr. Mulrenin, Mr. Judge, Mr. Fitzgerald, Mr. Rivas, Mr. Clinton, Elam Miller, Angus McDonald. The Oaklanders were Miss Kline, Miss Andrews, Misses Gulchard, Miss Magann, Anna and Lottie Gulchard, Misses MacDonald, Miss Degnan, Miss Fennessey, Miss Johnson, Miss Keegan, Miss Smith, Miss Margaret McDonald, Mrs. R. F. Gulchard, Misses Wohlfrom, Miss Seesley, Messrs J. Coughlin, J. Fennessey, Dr. D. Callinan, Dr. C. Callinan, S. L. S. S. J. Burke, Harry Reginald and Robert F. Gulchard Jr., W. McIntyre, H. PREVENT FIRES ON FOURTH

CHIEF BALL MAKES SOME SUGGESTIONS TO PEOPLE OF CITY.

Chief N. A. Ball of the Fire Department has issued the following timely notice regarding Fourth of July fires:

"To the Citizens of Oakland—In view of the near approach of the Fourth of July, with its attendant conflagration hazard, it is desired to call attention to the following simple precautions:

"Keep all skylights and upper windows closed, keep barn doors and windows closed.

"See that your house is in good condition and attached to water pipes; keep buckets filled with water and placed around the premises; if you have ladders, have them so placed that you can quickly ascend to the roof.

"If you have gratings in the sidewalks over basement doors, remove all rubbish and if possible close them over temporarily to keep out firework.

"Remove all packing boxes, goods in cases and rubbish from sidewalks, roofs and gutters, areas and yards. If any boxes are necessarily left outside, pile them snugly and see that no packing material is exposed.

"Special orders have been issued that all members of the Fire Department will be and remain in the engine houses during the 3d and 4th of July.

"Ascertain location of key of nearest fire alarm box."

EXERCISES AT ELMHURST

SUPERINTENDENT CRAWFORD MAKES ADDRESS—DIPLOMAS GRANTED.

ELMHURST, June 30.—At the graduating exercises of the local grammar school held last night there were present nearly all of the residents of the district. Literary and musical program preceded the giving of the diplomas to the graduates.

T. O. Crawford delivered an address to the children. A lot of good advice for their conduct in after life constituted a portion of his talk, which was listened to with careful attention.

The e was an oration also by the new principal of the Union High School, F. S. Foster, late of Redwood City. A specialty was made of the singing of the children.

Under the direction of Mrs. N. M. Newman a very creditable performance was made by the little ones. Fancy calisthenic drilling also formed a part of the exercises.

La Vedette Mandolin Club favored with several pretty instrumental selections. Principal J. D. Armstrong gave the diplomas to the graduates and acted as chairman of the entertainment.

Following are the names of those who were graduated: Mary Carrigan, Lillian E. Faulkes, Mabel E. Graham, Madge D. Hansen, George L. Herrier, Edna Schetter, Arline E. Shaw, Margaret H. Soares, Samuel L. Soares.

BAD NAUHEIM. Grand Duke of Hesse, June 30.—Professor Groedel, who was Secretary Hay's physician while here, says it is impossible for Mr. Hay to have uremia and that Mr. Hay's kidneys were altogether healthy.

Mr. Hay, replying today to a cable inquiry of Professor Groedel, said: "Mild uremia, improving. Nothing complex. Thanks."

NEWBURY, N. H., June 30.—The improvement in Secretary of State John Hay's condition today was even more marked than on yesterday. Dr. Murphy stated today that Mr. Hay would be able to leave his bed Sunday.

MEDIUM TELLS HOW SHE DECEIVED.

Woman Says She Gave Orders of Dead to Erastus Bartlett of This City.

SAN FRANCISCO, June 30.—The work-a-day law offices of Thomas, Gerstle & Frick, where Clement Bennett is sitting as commissioner in the case of the Bartlett estate against Hugh Eldridge et al., was given entirely over to the spooks yesterday.

Hattie Arens, by profession a mouthpiece for disembodied spirits, was on the stand all day, and the way she spoke of the doings of the other world made the very window panes rattle and the sunbeams almost afraid to peek into the room. She is said to have been engaged by the defendant to pass out the ghostly dope to the late Erastus Bartlett, who was once a resident of Oakland, in this way securing a deed to a half interest in 630 acres of valuable real estate in the city of Whatcom, Washington.

The Bartlett estate was represented by Attorney Louis S. Beedy, with H. A. Fairchild for associate. Attorney Alfred Black, Whatcom, Washington, appeared for the defendants, the chief of whom, Hugh Eldridge, was present.

The complainants claim that fake spirit communications induced Erastus Bartlett to believe that in 1891 his father had executed and delivered a deed for the lands in question to Hugh Eldridge, and that in giving a subsequent deed to Teresa Eldridge he thought he was but making restitution, the former instrument having been lost.

The medium admitted that she had played into the hands of Hugh Eldridge and said that she and her co-spiritualist, Elizabeth Tully, had been promised \$5,000 for doing so. Mrs. Arens is no longer young and does not seem calculated to wield an extraordinary influence over an old man

by merely human means. But when backed by alleged influences from beyond she seems to have stood high in the decedent's favor.

"When did you first meet Bartlett?" asked Attorney Beedy.

"Well, it was about nineteen years ago. He had a headache and asked me to cure it. I did."

"When did you next see him after the headache?"

"Well, off and on, all of the time after that while he was here," she responded. "It was not less than four times a week." The witness added that Bartlett's faith in Spiritualism was firm until his death. Asked how she managed the sky telegraph, she said:

"I would become semi-unconscious. He thought I was unconscious, but I never was."

"What appearance did you assume?"

"I assumed the appearance of the spirits. I spoke as though the spirit was speaking and I thought it was. I know it was something. It wasn't me, anyway."

Eight years ago another medium, Elizabeth Tully, was introduced to Bartlett, who was then an old man. Mrs. Arens said that she and the Tully woman used to meet on the street corner near Bartlett's Oakland home and compare notes so as to keep inconsistencies out of the "messages."

As to what she had done to secure the deed which is the bone of contention, the witness said: "Hugh Eldridge wanted to have the deed fixed up for his mother and I said I would do what I could. The next time I gave a sitting after this the spirit of his father came and told him he would like to have it done. Judge Rice's spirit also told him that it was his only salvation. I told Mr. Eldridge when I had succeeded and he was much elated."

The hearing is on today, when Attorney Black will try to knock holes in the testimony of the spook doctors.

and patriot, John Boyle O'Reilly, has been married to Ernest Hocking, professor of philosophy at Phillips Andover Academy. The ceremony was performed by Rev. S. M. Crocker, a Unitarian clergyman of Cambridge, after the bride had been in vain to procure a Roman Catholic priest to officiate. Archibishop Williams having refused his permission. The marriage occurred at the bride's home in Brooklyn.

WHAT THEY LEARNED FROM SEA BATTLE. BERLIN, June 30.—The German Naval League in a regular news bulletin, says the lesson of the battle of the Sea of Japan is that the best type of warship is the battleship of the largest displacement equipped with the heaviest possible guns and armor.

The league notes that the Japanese torpedo boats attacked after the Russian fleet had been weakened. The armored corvette Hanst, the first warship built under the German empire and which was laid down at Danzig in 1872, is offered for sale to the highest bidder. She lies at Kiel with several other old vessels stricken off the navy list.

Acute Rheumatism. Deep tearing or wrenching pains, occasioned by getting wet through; worse when at rest, or on first moving the limbs and in cold or damp weather, is cured quickly by Ballard's Snow Liniment. Oscar Cleason, Gibson City, Ill., writes, February 16, 1902: "A year ago I was troubled with a pain in my back. It soon got so bad I could not bend over. One bottle of Ballard's Snow Liniment cured me." Wishart's drug store, Tenth and Washington streets.

LADIES' NIGHT IS A SUCCESS.

Many Pleasing Features Given Under Auspices of the Reliance Club.

Members of the Reliance Athletic Club and their friends were treated to one of the best entertainments ever given in Oakland at the ladies' night last evening. Special features were the roller races, the Roman gladiators and the Rittler brothers in their comedy gymnastics.

Owing to the lateness of some of the performers the show did not commence until after 8:30 o'clock, when little Bella Manning appeared and performed very creditably with one and two batons. She was followed by H. C. Kreger as a German comedian.

ROLLER RACES.
Ed McTigue was the victor in the roller races. There were four competitors, McTigue, Cecil Nelson, Sam Hancock and Don Trego. The first heat was between Hancock and Nelson, being won by the former, who made the mile in 2 minutes and 29 seconds. McTigue defeated Trego, making it 1:10.

For the final heat the distance was two miles, which McTigue made in 2:27. Sam Hancock made the three-quarter mile in 1:10. The race was very close for the first mile, during which the hands of the indicator seemed glued together as they circled the dial. At the beginning of the second mile McTigue began to draw head and steadily increased his lead until the finish.

OTHER NUMBERS.
Walter Wilson favored with an exceptionally fine tenor solo, which received an encore. L. C. Dale and L. A. Cassavant then gave an exhibition bout of fencing, which was well performed.

The next number on the program was the pyramid building by the boys of the club. The exercise was in charge of Otto Rittler, the physical instructor, and was completely successful. G. J. Anlof, the champion wrestler, formed the bases of the pyramid, of which there were three, each better than the last. The following boys took part in the exercise: Fred Quinn, W. E. Harrell, Allen Anderson, James Evans, Ben Durning, Harry Marshall, John McRice, G. J. Anlof, Earl Stevenson, Instructor Rittler.

LONG TRIP IS MADE BY OAKLAND WHEELMAN.

PORTLAND, Ore., June 30.—Robert Geistlich, chief operator of the western division of the Associated Press, N. S. Farley, deputy collector of Port of San Francisco, and Leo Hampton, an Oakland merchant, arrived yesterday afternoon on their overland trip by wheel from San Francisco. They started June 10, and were out nineteen days, traveling 809 miles, which gave them an average of fifty miles a day.

They report that ideal weather conditions made a rapid trip possible, although they found the roads in the southern part of Oregon decidedly poor, with California roads correspondingly good. They will remain in Portland a week, returning by train.

TACOMA MEN DR. MOSKIMAN IS POUNDED OFTEN

PORTLAND, June 30.—Tacoma 4, Portland 1. was the score at the close of yesterday's game. Tacoma won because of better all-around playing both in the field and at the bat.

Brown held the Websters down to four scattered hits, while seven, and four of them doubles, entered into the tallying of the visitors. They bunched their hits and scored their runs one at a time.

Portland fell down in fielding, as the score card will show, while the men from Tacoma executed two fast doubles that took away what little chance Portland had.

Pete Lohman assisted in umpiring and the crowd appeared satisfied. Score:

EDDIE SMITH WILL REFEREE.

Will Judge the Contest Between Clifford and Angeli

AT GRASS VALLEY.

Ed Smith of this city has been selected to referee the contest between Joe Angeli and Jack Clifford, which takes place on July 4th at Grass Valley. The articles call for 135 pounds, twenty-four hours before the battle.

Angeli and Fred Landers recently fought a draw and should Clifford score the victory over the former, he will be matched to fight Landers.

Referee Smith will leave this city on the afternoon of July 3d, in order to be present at Grass Valley in plenty of time to give both contestants final instructions before entering the ring.

Frank McDonald of San Francisco, is supervising the training of Angeli, and he sent word down here today that his charge will make the weight easily, the weather there being very warm causing the flesh of the fighter to drop off in hunks.

Angeli is doing his training at Nevada City. Clifford is preparing at Grass Valley and is rounding into fine shape. He has an awful hard punch which many fight fans think will land him the money, and the promised go with Landers.

NEW YORK, June 30.—Captain Hank Haff, the famous yachting skipper, and his wife are seriously ill at their home in Islip, Long Island.

HAYWARDS BALL TEAM REORGANIZED.

Fast Line-Up is Now Presented—Good Game Down For Sunday.

The Haywards baseball team will clash with the H. B. Rye team of San Francisco next Sunday at 3 p. m., on the Haywards diamond. The game will be called a half hour earlier than usual in order that the visiting Eagles may visit the game before the installation of the new serie of Eagles on that day.

On the afternoon of July 4th the Haywards team will play Brentwood, the champions of Contra Costa county on the Haywards ground. Brentwood challenged Haywards some time ago for a game with \$100 side bet and the coming contest has resulted.

HATWARDS, June 30.—This city will certainly be treated to some great baseball game the balance of this season.

Manager Bill Knightly has had his troubles, as it seemed most impossible to get a bunch of good players to gether as a regular team to represent the town. But Bill has worn a smile through all his troubles and has at last reaped the reward, as he now has nine of the fastest men in the business.

The fans are impatiently waiting to see the line-up next Sunday that will represent them the balance of the season.

THE PLAYERS.
Ellis will be behind the bat, and is catching a very consistent game, and is batting in good form.
"Smiling Jack" Flynn will be seen delivering his tantalizing curves. Jack has already won the hearts of the Haywards fans.

WENTWORTH'S SALABLE MAKES WORLD'S RECORD.

DENVER, June 30.—George Wentworth's three-year-old Salable, carrying 105 pounds, has established what is believed to be a world's record for five furlongs on a seven furlong track at Overland Park, covering the distance in 1:00 1/2, beating such good sprinters as Flying Fox, David Boland and Prince Brutus.

The world's record for five furlongs on a mile track is :59 flat, and among others that time was made by Old England on the local track.

PAINTERS ELECT KNIGHTS AND LADIES ELECT NEW OFFICERS

OVER 400 MEMBERS WERE PRESENT AT MEETING LAST EVENING.

Local 127 of the Painters' Paperhangers' and Decorators' Union held one of its largest meetings last night in Kohler & Chase Hall. Over 400 members were present to take part in the election of officers. The following were elected:

President, D. S. Resch; vice-president, G. W. Soadden; recording secretary, W. P. Ward; financial secretary, R. P. Woodman; treasurer, F. M. Dewar; warden, William Colgate; conductor, M. J. Tevelin; trustees, J. H. Pulsifer, F. H. Pratt, and E. Coleman; executive committee, F. M. Dewar, C. J. Williams, W. E. Bradley and R. P. Poorman; delegates to the District Council of Painters, William E. Scully, F. H. Mosher, F. H. Pratt, George W. Soadden, W. W. Norris, and J. H. Pulsifer; delegates to the Alameda County Building Trades Council, F. H. Pratt, F. H. Mosher, R. P. Poorman, C. J. Williams, G. W. Soadden, and W. E. Scully.

LABOR DAY.
The committee preparing for the celebration of Labor Day reported that everything is going forward splendidly. It was decided last night to engage Mc-Bain's band of twenty pieces to parade with the union an accompany it at the picnic. The local will be in the procession with the other members of the Building

M'CREEDE ACCUSES PERRINE OF THROWING GAMES.

PORTLAND, Ore., June 30.—W. W. McCreedy, president of the Portland Baseball Company and vice president of the league, has mailed to President Bert a letter in which he makes direct charges against Umpire Perrine of "throwing games" in favor of Tacoma. In a four-page type-written epistle, Judge McCreedy is declared to have made a number of statements accusing Perrine of doing everything in his power to give Tacoma close decisions, and it is reported that the writer states that Perrine must be in the hire of the Tacoma team. He is also averred to have written that if Walter McCreedy did split in the face of the umpire it served him jolly right.

Jerrine found a copy of the letter in his coat and was up in arms about it. He first thought of quitting his job to lay the matter before Bert in person, but had a talk with McCreedy last night, at the close of which he declined to give a copy of the letter. "This was at the request of McCreedy, who wired Bert: 'Have talked with Perrine. Everything is all right. Please destroy letter.'"

Perrine is still sore, and says he intends to have Judge McCreedy prove his statements or back down from the position he has taken.

This same accusation has been made against Umpire Davis in regard to his conduct toward Henry Harris' Seals. Scores of fans have openly stated that by giving San Francisco the benefit of close decisions he has shown to their minds that he is on Uncle Henry's payroll. It is hardly probable, however, that either Perrine or Davis are receiving glittering gold for throwing games to either Tacoma or San Francisco.

Local fans are certain that "Bull" is honest in all decisions rendered on the diamond and has no desire to give Portland or any other club the worst of it. While Davis has made some very rank decisions which benefited San Francisco, there is no evidence to show that he is leaning to the best of his ability, even if to their minds that ability seems to be warped.

A thorough investigation will no doubt show that the three umpires in the Pacific Coast League are deciding the plays as they see them and not for any consideration from any manager, or fan, or other person.

SEALS DROP FLOATING POOL ROOM IS A SUCCESS

CHICAGO, June 30.—The steamer City of Travers, America's first wireless floating poolroom, has made her initial trip. At a point twenty miles southwest of Chicago, in the middle of the lake, just half way between Michigan and Illinois, the boat was slowed down to two miles an hour and described vast circles for the remainder of the afternoon.

The wireless apparatus picked up the results at Sheepshead Bay, Latonia and Buffalo, sent from Chicago and Michigan City.

Bets were made and paid as at a track, and the crowd made up in betting enthusiasm what it lacked in numbers, there being only 300 passengers. The owners of the boat declare that they will make daily trips hereafter and expect that nobody will interfere with them.

The Chief of Police of Chicago has been informed by the city's legal advisers that he is powerless.

FIRE FIGHTERS WIN BALL GAME

Last Sunday the Fruitvale Hose Company's baseball team defeated the Berkeley Stars by a score of 15 to 4. "Steamboat" Pullen, out in right field, did some fine work. He ran about a half a block and captured a very hard fly. If he keeps on doing such fine work he will soon be travelling in faster companies.

The Hose Company wish to state that they will challenge any team on the Coast that average 18 years.

The line-up is as follows: Pitcher, Peterson, third base, M. Carroll, first base, L. Albright, second base, E. Jackson, C. A. Vallin, P. W. Harrold, short-stop, Jim Rosengreen, right field, R. Pullen, center field, W. Vogel, left field.

Address all challenges to Alexander Vallin, Fruitvale P. O., Cal.

956-958 WASHINGTON STREET
COME EARLY FOR THE BIGGEST BARGAINS IN TOWNHARTOG TO MAKE WAR
ON THE WEEDS.County Board of Horticulturists to
Consider the Matter This
Afternoon.

ALAMEDA, June 30.—Manager John H. Hartog of the Alameda Advancement Association is conducting a vigorous campaign against weed-becked lots and sidewalks, and purposes to have them cleaned up if the law has to be invoked to carry out his project. Mr. Hartog is to appear before the County Board of Horticulture this afternoon in the County Clerk's office, Oakland, where

he will outline his plan of carrying out the recently passed law, which provides that it is a misdemeanor to allow weeds to grow in vacant lots and along the sidewalks adjacent to property.

Mr. Hartog has mapped out the city and marked the vacant and uncultivated lots. Many of the lots are the property of some of Alameda's prominent and influential citizens, but Mr. Hartog apprehends no great labor or trouble in having them acquiesce to his plan of beautifying the surrounding property by cleaning up the rubbish.

Recently the manager for the Alameda Advancement Association addressed a communication to the railroad asking for some needed repairs on the tracks of the Episcopal Avenue line. The repairs are now in proximity to completion. He is making an endeavor to have new stations erected along this line, and states that he is meeting with success in his efforts. The property owners are willing to contribute to the cost of the new waiting room at the station and at other points along the line a like spirit is manifested.

TO CONSIDER IMPROVEMENTS.
ALAMEDA, June 30.—The alleged nuisance caused by the match factory at the foot of Oak street has been taken under advisement by the North Side Improvement Club. They purpose to find from whence the odorous nuisance proceeds, and are then to bring the matter before the Board of Health. The members of the club are to exercise their San Jose Police instincts and fix the blame between the match factory and an oil refinery at Fruitvale near the tidal canal.

The North Siders are to endeavor to have Railroad Avenue straightened out. This street, so they say, dances a serpentine course through a portion of the city, but the value of property on the thoroughfare is very much depreciated because of the twists and turns of the thoroughfare. In many places the property abuts into the street, leaving no room for sidewalks. This is noticeable at the corner of Railroad Avenue and Oak street, and the property owners at that point are to be asked to dedicate twelve feet of land to the city in order that a sidewalk may be built.

There is also a plan on foot to petition the Southern Pacific Company to give better transportation facilities on the Railroad Avenue line on Sundays, where there is only a forty-minute service existing at present.

THE POSTOFFICE LEASE.
ALAMEDA, June 30.—The acceptance of a new lease for the local postoffice is to be made by the department in a short while. The second assistant superintendent of services and maintenance is expected here tomorrow, when it will be decided whether the postoffice is to remain at its present location in the Tucker building or be moved to either the Odd Fellows' building or the Delaney block.

GOES TO LOS ANGELES.
ALAMEDA, June 30.—Lewis L. Durkee leaves tomorrow for Boulder Creek, where he will spend a week in camp with Howard Kussel and Frank O'Brien of Alameda. After his sojourn at the mountain, where he will proceed to Los Angeles, where he will reside permanently, having accepted a position with an insurance office in the southern metropolis.

WILLIAM TAYLOR TO WED.
ALAMEDA, June 30.—The wedding of Miss Irene Zacharias and William Taylor will take place on Monday afternoon at the residence of the bride. The Rev. Dr. P. S. Brush is to perform the ceremony. The maid of honor is to be Miss Anna Taylor, a sister of the groom, and Bert Zacharias, a brother of the bride, will officiate as best man.

A NEW BUILDING.
ALAMEDA, June 30.—Arnold Postal, who recently returned from a three years' stay in Europe, has decided to erect a three-story brick building on the corner of Third street, opposite the Masonic Temple. The building will be used as office rooms, and in all probability will also be equipped with a telephone. An architect is now working on the plans, and it is expected that ground will soon be broken for the erection of the edifice.

AN INVITATION.
ALAMEDA, June 30.—The following communication has been received at the office of City Clerk James V. Gilly: "The executive of the company of the Alameda and members of the Council of the city of Alameda is requested at the ninth annual convention of the League of American Municipalities, to be held in

the city of Toledo, O. August 23, 24 and 25, 1905.
R. H. FINCH, Mayor.
C. H. WILLARD, President of Council.
PASSED EXAMINATION.

ALAMEDA, June 30.—Several Alameda school teachers have successfully passed the civil service examinations admitting them to teach in the public schools of San Francisco. Over three hundred contestants entered the lists, and out of this number Miss Lillian Roden, teacher of the seventh grade, Night School, made the highest average.

Among the other Alamedans who took the examination and passed with creditable averages were Miss Mabel Livingstone, Miss Edith Carpenter and Miss Helen Sullivan.

PERSONAL NOTES.

ALAMEDA, June 30.—Miss Gertrude Bruns has gone to Los Gatos, where she is to spend the summer months. Abram Rich and Miss Margaret Rich are touring the Yosemite Valley.

Mr. and Mrs. Howard M. Hansbrow (nee Reid) are spending their honeymoon at Cazadero.

Judge and Mrs. Fred S. Cone are expected home tomorrow after seeing the sights at the Lewis and Clark Exposition.

E. A. Buckie is to go to Guernwood Park, where he will spend a month in camp with friends.

HONOR LIST TO
BE ANNOUNCEDKING EDWARD WILL MAKE AP-
POINTMENTS ON HIS
BIRTHDAY.

LONDON, June 30.—The honor list in connection with King Edward's birthday, which will be officially observed today, has been issued.

It created Admiral von Span of the Austrian navy and Admiral Fournier of the French navy honorary knights of the Grand Cross of the Order of St. Michael and St. George for their services as members of the international commission which inquired into the disaster at the collision of the battleships, and George Alameda, the novelist, received the order of merit. A number of colonial personages are recognized in appointments and orders.

Colonel Charles Moore Watson, who was secretary to the royal commission to the St. Louis exposition, is raised from colonel of the Order of St. Michael and St. George to Knight Commander of the same order for his services in connection with the exposition.

Four additions are made to the privy council—Baron Mansfield, Lord Rayleigh, Lord Curzon and Sir R. B. Finlay. Ten new knights are created. In the list are twenty-one new knights, Sir Lawrence Gordon, the banker, and George Alameda, the novelist, received the order of merit. A number of colonial personages are recognized in appointments and orders.

HOW HE REACHED IT.

Visitor—And what reached the poor fellow there in the padded cell beating his head against the upholstery?

Attendant—He attempted to build a house in the suburbs, with the aid of supervising architects, and to stick to his own regular work at the same time.

Baltimore American.

UNSIGHTLY BALD SPOT

Caused by Sores on Neck.
Merciless Itching For Two
Years Made Him Wild.

ANOTHER CURE BY CUTICURA

"For two years my neck was covered with sores, the humor spreading to my hair, which fell out, leaving an unsightly bald spot, and the soreness, inflammation, and merciless itching made me wild. Friends advised Cuticure Soap and Ointment, and after a few applications the torment subsided, to my great joy. The sores soon disappeared, and my hair grew again, as thick and healthy as ever. I shall always recommend Cuticure." (Signed) J. J. Spalding, 10 W. 104th St., New York City.

EXPRESS
COMPANIES
PETITIONWant Better Freight
Service From Broadway
Across the Bay.

The Expressmen's and Draymen's Association of Alameda county which comprises a large number of transfer companies which do business between Alameda, Oakland and Berkeley and San Francisco have been negotiating with the Piper, Aden, Goodall Company of bay freighters for the purpose of securing a boat for the accommodation of the trans-bay freight business conducted by this transfer association between the cities mentioned on both sides of the bay.

For a number of years this traffic has been conducted on boats belonging to the Southern Pacific and the accommodation afforded the transfer companies has been generally satisfactory.

Since the inauguration of the twenty-minute ferry service, however, the transfer men have been subjected to considerable inconvenience.

The steamer Garden City which had been used on the Oakland harbor run, and which was able to accommodate the traffic at the busiest hours of the day, was condemned. The new twenty-minute ferry service caused the company to devote all its large boats to the passenger service and necessitated the substitution of the steamer Bay City for the Emerald and Garden City on the harbor trans-bay run.

Secretary Samuel A. Williams of the Expressmen's and Draymen's Association, says the Bay City is too small to accommodate the immense and growing transfer business between both sides of the bay. Wagoners are compelled, he says, to reach the loading dock an hour before the time of the departure of the boat in order to insure admission to the boat on the other end, and sometimes, on this side of the bay.

Even then, he says, wagons are unable to secure passage.

The transportation committee of the association, comprising C. W. Childs of Logan's Express; Henry Hinman of the Merchants' Express and P. M. French of Scott's Express, together with Secretary Williams, had several conferences with Messrs. Palmer, Sproul and Luce, all officials of the Southern Pacific, with a view to securing adequate accommodations in the line indicated, but without satisfactory results. Secretary Williams is willing to help the Expressmen's and Draymen's Association as best it can, but it can do no better than it is doing now, because of its shortage of large boats.

Secretary Williams announced that the transfer committee in question had conferred with the Piper, Aden, Goodall Company on this subject to ascertain what that concern could do in the premises, with the result that that firm has intimated a willingness to put on a steamer between San Francisco and Oakland to carry the association's business between those points. If that shall be done it will lead to the discontinuance of the carting of the business of the association between this city and Berkeley, which has long been the case.

With respect to putting a boat on the harbor run between San Francisco and this city, the Piper, Aden, Goodall Company will confer with the Expressmen's and Draymen's Association on the 12th of next month.

LADIES OF NEWARK

NEWARK, June 30.—Mrs. Samuel Brown and daughter are at Boulder Creek for the summer.

Miss Jessie Graham will enter the University at Berkeley in August.

The Ladies' Aid Society had a delightful outing on the grounds at Plummer Salt Works, Mr. and Mrs. Walter Robie being their entertainers. The meeting of yesterday was the last for the season.

Mrs. William Smith of Berkeley visited her husband here for two days, but has now returned to her home.

BERKELEY, June 30.—Some time ago a protest was made by the Berkeley excursionists that the "dollar-a-day" excursionists to Oakland were rushed through Berkeley without being given a chance to view its beauties and attractions.

J. L. Barker has been investigating the matter and has found that Berkeley has no kick coming at all. "I found that in the advertising matter sent out by the Berkeley board," said Barker, "that Berkeley is advertised twice as Berkeley and as the home of the University of California. Furthermore, in the lectures at the board's rooms in Oakland, many views of Berkeley are displayed and the lecturer given considerable time to discussing on the college town."

"One thing which was called to my attention by Secretary Stearns did not please me. It seems that Berkeley is receiving all this advertising and yet not contributing one cent toward paying for the cost, so that the Board of Trade is running behind. Now, it should be a matter of pride to Berkeleyans to see that Berkeley is advertised as well as Oakland and other towns, and I guaranteed to raise at least \$5 a month for the next year for the board. I shall make a personal canvass for this, and I think we should contribute more so that the board can broaden out in its work. The following letter, which I received, will explain what the Oakland Board of Trade is doing for Berkeley:

"My Dear Mr. Barker: Concerning the 'dollar-a-day' excursions and the slight misconception which exists in some quarters in your city relative to where these excursions are taken, we hasten to reply. The excursionists leave San Francisco at 9 o'clock in the morning for the Oakland harbor route, that they may see the shipbuilding and other manufacturing interests on the water front

SCIENCE SETTLES IT.

Dandruff is caused by a Germ That Saps the Hair's Vigor.

It is now a settled fact that dandruff is caused by a germ. Falling hair and baldness are the result of dandruff. Dr. E. J. Beardsley, of Champaign, Ill., got hold of the new hair preparation, Newbro's Herpicide, the only one that kills the dandruff germ. He says: "I used Herpicide for my dandruff and falling hair, and I am well satisfied with the result." Dr. J. T. Fugate, of Urbana, Ill., says, "I have used Herpicide for dandruff with excellent results. I shall prescribe it in my practice." Herpicide kills the dandruff germ. Physicians as well as the general public say so. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Bowman & Co., special agents.

ANARCHISTS HOLD
MASS MEETING

NEW YORK, June 30.—News of the riots and pillage in Odessa has stirred the anarchists who hold forth on the East Side as they have not been stirred before in years.

The anarchists held a mass meeting, which packed Clinton Hall, funds were freely subscribed for Russian revolutionists, and the speakers predicted that the present uprising marks the wane of the present governmental system in that country. Harry John Moore was the principal speaker. He said the news from Russia was the most glorious of the world had ever heard and that the movement would go on until Russia was trampled to dust.
